Global Recognition

Presented To:

Ankit Mahajan

Congratulations on your achievement of a Gold Award

Ankit has done a great job in identifying and cleaning up the redundant Autosys jobs in ICO Production environment.

Ankit performed a detailed analysis in identifying 300 out of 500+ redundant jobs . He conducted a thorough test to ensure cleaning up these wouldn't impact the current production setup and coordinated the clean up in production perfectly.

Kudos Ankit for all your hard work and commitment in quickly learning technologies and domain required in ICO and delivering values to the business.
